New Casino Dealer Academy Offers New Career Options for Out-Of-Work New Jerseyians

Northfield — From Casino Dealer Academy — Although the new Casino Dealer Academy celebrated its first day of business back in early March, the school was only open for one day when the news of the Coronavirus lockdown took effect. After pouring her life savings into her new business, the company's founder, Angel Denise Jones, was determined not to let the devastating virus can on her dreams. Instead, her dedicated team member handmade face masks and passed them out at the curbside of her new location on 331 Tilton Street in Northfield, NJ.

Having been an instructor for the last 33 years, it was Angel's lifelong dream to open her own business and improve the lives of local residents, veterans, teachers, retired military, or even seniors who wanted a great-paying, flexible career. For the last 14 years, Angel has worked as a certified nurse assistant and loves spreading her wings helping others. Her vision was to transform ordinary casino dealers into extraordinary dealers through exceptional learning of the skills required to get top jobs at private parties and casinos.

POSITIVE COMMUNITY IMPACT

The mission of Casino Dealers Academy's is to empower people with casino skills to broaden their horizon, excel into co-offence of casino games and achieve their financial goals. The school is committed to opening the school safely, using Federal guidelines and common sense strategies. Masks are available to all employees and students, as well as plexiglass barriers to bring an extra level of safety to all students.
